STD Awareness:  
These posters were created to help spread the awareness of sexual health on a college campus. The goal is to promote that no matter what your label is, you're still human, and you should take care of your self.

## Twitter Redesign:

This a web space redesign for popular users on Twitter for Marilyn Manson, Girl Scouts and Forever 21.

**Marilyn Manson :**  
Continuing with the artists' prominent use of black and red, I brought it over to his twitter site while promoting his new album.

**Girl Scouts:**  
I redesign the Girl scouts logo along with their presentation of their twitter site. The goal was to advertise their cookies.

**Forever 21:**  
I gave them a simple logo which fit in the small window for easy identification and took a photo from their site edited in photo then placed into the banner.
